Halton Hoisting Ltd: Construction Elevator Service & Rentals in Ontario

Wherever you are in southern Ontario, Halton Hoisting Ltd is your source for construction elevators. Based in Burlington and serving Ontario from Windsor to Ottawa, Halton Hoisting Ltd has been servicing, installing and renting construction elevators for over 15 years.

MAN + MATERIAL HOISTS

Passenger & Freight Elevators

Whether you are moving materials or moving people, Halton Hoisting Ltd can help. We provide maintenance, repairs and installation of construction elevators for commercial buildings. If you are tearing down a building, renovating a hospital or performing routine maintenance for a construction elevator, Halton Hoisting Ltd can provide all the lifting services you need.

various sized hoists, single or dual cars with end doors or side doors

Construction Elevator Maintenance & Repairs

If you are a property owner, you know that an old, unreliable construction elevator can be dangerous. A modern, properly maintained construction elevator is safer, makes your building more desirable, and also saves you money in the long run.

Construction Site Rentals

If you need a passenger or material lift for your construction site, contact Halton Hoisting Ltd. We offer full installation and delivery of lifts, including gates and intercom speakers. You can rent construction elevators on flexible terms for however long you need them, and Halton Hoisting Ltd is always available if you need service.

loading docks with overhead protection, landing platforms, intercom speakers
